A Word to Republicans.

The hope of the party lies in the expansion of a statecart Republican press. The Republican section of the extended and the expansion of the action of the exclusion of one of his own party never power in starture to the Republican cases.

Chandronsis undersibed to by the Sational it

The People's party's effort to disguise itself was a failure. It is the corn-folder currency party and nothing else.

ATTENTION of our good Democratic friends is respectfully called to the fact friends is respectfully catled to the fact that in Hungary-which is not protected by a robber Tariff—eleven men and women strikes have just been killed by gendarmes who were called in by a farmer to restore a wagon load of corn they had selzed from him. The average llungarian seems possessed of a desire to create trouble by taking that which ideem't belong him, even in his own country.

THE Burean of Statistics of the Treasmonth Train Statistics of the Treasmonth Treasmonth Trained Statistics of the Treasmonth Trained Statistics of the Treasmonth Trained Statistics of the Greign trade of the Carlied States for the Greigh trade of the Carlied States and June 1984 and the 1982 of the Greigh trade of the Carlied States for the Greigh trade of the Carlied States but have official totals. For the first time in the history of the country the total exports for the year reached a billion dellars, the exact value being \$14,03,356,92. This is an increase over the previous year of \$145,54,446. The exports exceeded the increase over the previous year of \$145,54,446. The exports exceeded the form our favor. The total foreign trade of the United States but humpers and exports was \$1,557,72,010.

United States both imports and exports was \$1,857,725,110.

The value of imports coming in free of duty was \$45,851,81,145. The value of duthable imports was \$390,390,130.

The percentage of free imports was \$55,88, an increase of 16,73 per cent, over 1800, when the percentage of free imports was \$35,88, and increase of 16,73 per cent, over 1800, when the percentage of free imports was \$35,15. In 1800 it was \$34,15. But the following statement tells its own story as to the McKindy Tariff even more startlingly: The average ad valorem duty levide on the total imports for the year ended Jane 30th, 1802, was \$20,95; for the year ended Jane 30th, 1802, was \$20,95; for the year ended Jane 30th, 1802, was \$20,95; for taken in the percentage of the year pended Jane 30th, 1802, was \$20,95; for taken in the percentage of the year pended Jane 30th, 1802, was \$20,95.

These figures in detail will be ready for publication in a few days, and they will admit of many interesting comparisons, and furnish texts for countless Republican campaign speeches.

The well is the sublect of remarks.
